That is great news!
I checked with Baldor for the boards you requested.
They advised the first one you asked for is EXB001A01. Your price is \$211.08. Baldor has stock in Arkansas.
The second one should be EXB012A01. They said that it has been discontinued. Baldor is checking to see if they can still manufacture it. I was promised an answer by tomorrow. As soon as I get their reply, I will send you a formal quote.
I also look forward to working with you on the upgrade.
Thank you...
